ABOUT DANTE 2

Think **high-contrast with purpose**. The geometry pulls the eye straight down the cue so aiming feels immediate; the cross motif punctuates the sleeve, and a **red widow’s-peak** finish caps the look. A **white contrast collar** frames the joint—crisp, modern, and made to stand out without getting busy.

Grip is your call: a **sleek wrapless** handle for a fast release, or **embossed lizard leather** in **white** or **black** for a textured hold. Either way, the visuals stay sharp under clear so the cue looks as good in month six as it did on day one.

Extras you’ll appreciate: All JFlowers playing cues ship with an extension ready bumper, include an XTC ferrule, come in 19 oz or 19.5 oz, and are fulfilled fast—from Jacksonville, Florida for North America and direct from the factory for international orders (typical transit: US ~4–5 days, International ~7–8 days).

DESIGN HIGHLIGHTS

- **Body & motif:** Black-painted maple with red points outlined white, a centered cross at the sleeve and forearm, and a red widow’s-peak butt cap—graphics sealed clean under clear.
- **Grip options:** Choose wrapless (painted grip) or embossed lizard leather in white or black for a textured hand feel.
- **Build & accents:** White contrast joint collar, 58 inches overall, 19.0 or 19.5 oz selections, and Radial (3/8"-8) pin.
- **Shaft options:** Ships with the Classic shaft; upgrades available to Crown, S.M.O. Carbon, or S.M.O-Wood to tailor response and feel.

WHY CHOOSE THIS CUE

You want bold sightlines with disciplined execution. DANTE 2 keeps the visuals **simple and centered**—then lets you tune **wrap feel** and **shaft model** so the hit matches your routine.

POPULAR FAQS

Q: What's the white joint collar made of—and why choose it?

A: **Phenolic resin**—it machines precisely, resists moisture, and shrugs off dings better than many plastics, so collars stay crisp and durable over time.

Q: How is DANTE 2 different from DANTE 1?

A: Same family, inverted palette—DANTE 2 goes **red-on-black with white outlines** (vs. DANTE 1's white-on-black theme with red outlines) and finishes with a **red widow's-peak** cap vs white.

Q: Which shaft diameters pair with each model?

A: **Classic**: (11.8 / 12.5 / 12.9 mm) is standard. Upgrades available: **Crown & S.M.O. Carbon**: (11.8 and 12.5 mm). **S.M.O-Wood**: (12.5 mm only).

WE SHIP FROM JACKSONVILLE, FLORIDA TO ALL OUR NORTH AMERICAN CUSTOMERS (3-5 DAYS).

OTHER ORDERS ARE SHIPPED FROM OUR INTERNATIONAL DISTRIBUTION CENTER (5-8 DAYS).

AEROGRADE

Our aerograde carbon fiber shaft is available in 11.8, 12.5 and 12.9 mm. The standard pin is a 3/8-8 Radial and the tip is a Moori medium (other tip options available).

EXTENSION READY

The Dante series bumper is extension ready. A multitude of extension choices are available to order.
